

Anti-Wrinkle		
Name	INCI / CAS NO.	Description
Inner Renewal [CC+AA]	Centaurea Cyanus Callus Lysate Extract (and) Ascorbic Acid	Anti-ageing, anti-wrinkle effect especially crow's feet, increasing epidermal cell renewal, anti-oxidant, increase skin's firmness, improving epidermis density. Slowing down call oxidation, repairing cell function especially increase fibroblasts presence and efficiency. To be used in antiwrinkle serum for older skin.
Optimum Life Angelica	Angelica archangelica callus extract	universal anti-ageing, anti-wrinkle and fine lines, firming, balancing, strengthens vital function of skin cells. Protecting, anti-pollution and anti-oxidant. To be used in day care or serums made to get an overall improvement of skin. For any type of skin, skin care and color cosmetics.
MReload Sequoia	Sequoia sempervirens leaf cell extract	global anti-ageing, dedicated for mature skins, decreases especially wrinkles and fine lines on male skins. Firming. Helps to a better moisturization, reinforces the cutaneous barrier. Soothing. Protects from overall oxidation directly and by strengthening the action of antioxidant enzymes. For any types of skin, face and body, to be used for a cure or a daily use. skin care and makeup.
Initial E [PT+TMG]	Polianthes Tuberosa Callus Extract (and) Betaine	Anti-wrinkle, anti dark circles, anti-puffiness. Multi activities and especially dedicated to eye contour. Anti-ageing and balancing effects, firming, moisturizing, increases radiance and skin barrier. Lipid restoring. Soothing, decreases skin irritation. Dedicated to adult and mature skins. To be used in eye contour products. Daily care or treatment care.
Power Extension [HSB+R]	Hibiscus Syriacus Callus Extract (and) Rutin	Anti-ageing, for adult and mature skins, limits the slowdown of metabolism, reinforces the production of energy, boost cell activity, antioxidant, limits the production of free radicals, helps to decrease the production of wrinkles. For facial daily skin cares or treatment - day or night care
All Even Sweet Iris	iris pallida leaf cell extract	Anti-ageing, it limits the apparition and the creation of wrinkles, firming effect. Improves suppleness and firmness of the skin, limit dryness of skin. Regenerating - any type of skin, especially for adult and mature skins - skin care againts wrinkles, eye contour care, or global anti-ageing products. For day and night skin care.
Foreseen Shield Nopal	Opuntia ficus indica leaf cell extract	Decreases the effect of photo-ageing, protects cell DNA from UVA and UVB, against scavengers, limits the creation of dark spots, protects and reinforces the skin immune system, decrease creation of wrinkles, for adult and mature skins, when skins is exposed a long time to UV rays - for daily facial care, sun care, after sun care
All Fiber Booster Olive tree	olea europea leaf cell extract	Anti-ageing, it limits the apparition and the creation of wrinkles, firming effect. Improves suppleness and firmness of the skin, limit dryness of skin. Regenerating - any type of skin, especially for mature skins and for skin care againts wrinkles, or global anti-ageing products. For day or night skin care.
All Fiber Booster Chinese hibiscus	hibiscus rosa sinensis leaf cell extract	Anti-ageing, it limits the apparition and the creation of wrinkles, firming effect. Improves suppleness and firmness of the skin, limit dryness of skin. Regenerating - any type of skin, especially for mature skins and for skin care againts wrinkles, or global anti-ageing products. For day or night skin care.
Inside Heart Egyptian blue lily	nymphaea caerulea leaf cell extract	High anti-ageing action. Slows down general intern cell ageing. Contributes to maintain skin youth, thanks to a better skin tension, and to better cell functions in the derma. Long term action. For mature skins - for face - night and day cream

Name	INCI / CAS NO.	Description
StandStill Rose from Damas	rosa damascena leaf cell extract	Anti-ageing - repair action. Prevents ageing of the derma. Decrease the formation of wrinkles. Helps to keep a firming and supple skin. For mature and adult skins. Also for eye contour care - night and day skin care.
Total Generation Centella asiatica	Centella asiatica leaf cell extract	Repair action, global anti-ageing. Reduces sagging of tissues, furthers skin firmness and elasticity. Contributes to decrease wrinkles. Reboostes skin youth, reinforces the skin barrier. Regenerating, redensifies, for mature and tired skins - treatment or daily use - skin care and body care - night and day care.

Nanoactive VC	50-81-7	Skin lightening, skin depigmenting, anti-aging, anti-wrinkle
Nanoactive AEK	79-81-2 7695-91-2 84-80-0	anti-aging, anti-wrinkle, Eye care
Nanoactive SA	69-72-7	Anti-aging anti-wrinkle, anti-acne, skin lightening

Name	INCI / CAS NO.	Description
ZPC®Wrinklend008S	ACETYL HEXAPEPTIDE-8	Acetyl hexapeptide-8 is an oligopeptide that mimics the N-terminus of SNAP-25 protein and consist of six amino acids. It can partially block the nerve from transferring muscle contraction message, relax the facial muscles to smooth the dynamic expression lines and fine lines. Due to high anti-wrinkle activity and good effect, it has been applied in many high-end cosmetics series.
ZPC®Creasend009S	ACETYL OCTAPEPTIDE-3	Acetyl octapeptide-3 is a neurotransmitter inhibitory peptide composed of acetic acid and octapeptide-3. An alanine and aspartate are added in it compared to the structure of acetyl hexapeptide-8. It provides a perfect repair environment for the skin, making the skin smoother and firmer, thus reducing the fine lines and wrinkles on the face.
ZPC®Wrinklend017S	DIPEPTIDEDIAMINOBTYROYLBENZYLAMIDE DIACETATE	Dipeptide diaminobutyroyl benzylamide diacetate is a small peptide that mimics the activity of the snake venom toxin, Waglerin I. Clinical trials have shown that it can reduce wrinkles by inhibiting muscle contraction and is an effective smoothing and wrinkle-removing active product by relaxing facial muscles.
ZPC-019S	ARGININE/LYSINEPOLYPEPTIDE	Buthotoxin is a rich source of various toxin polypeptides, and scorpion venom polypeptides can bind to various ion channels with high affinity and high specificity. It is a C-terminal polypeptide that mimics the SNAP-25 protein, which can partially block the muscle contraction information transferred by nerve, relaxing the facial muscles, and smoothing the dynamic expression lines and fine lines.
ZPC®Whiten0089S	DECARBOXY CARNOSINE HCL	Carnosine upgraded version, more stable and more effective
ZPC®Wrinklend018S	MELLITIN	Known as one of the most potent anti-inflammatory substances. Easily soluble in water and has a variety of pharmacological activities such as antihypertensive and analgesic effects, platelet aggregation inhibition, radiation resistance, anti-bacterial, anti-rheumatic and anti-tumor.
ZPC-016S	ACETYL HEXAPEPTIDE-8	Can improve the aging condition of skin, promote the production of lipids, and restore skin firmness, elasticity and luster
ZPC PEP-COMPLEX120	ACETYL TETRAPEPTIDE-9 ect.	Can act on the whole skin layer to resist ageing and remove wrinkles. Acts uniquely on proteoglycans and glycosaminoglycans, promotes the growth of keratinocytes, enhance epidermal cells cohesion, and repairs skin's stratum corneum.
ZPC®Wrinklend036S	ACETYL HEXAPEPTIDE-8 ect.	Contains four active components: palmitoyl pentapeptide-4, acetyl hexapeptide-8, palmitoyl tripeptide-1 and carnosine, which can directly target the appearance of various skin wrinkles and effectively remove wrinkles.
